

Made by **CETEOR**
THE BOOST MAKER

POWER & RELIABILITY

Marina operators, harbors and repair shops can count on the power and reliability of the **SOS Booster®** to start all leisure boats with flat batteries.

SOS 12V & 12/24V Portable Models

Four essential models for Marine use:

Jump Starter
SOS 12V-800CA
Petrol or Diesel

The ideal tool to jump start 12V Diesel crafts without a battery up to 150HP. **Eg. Jet skis, Zodiacs...**

Jump Starter
SOS 12V-1200CA
Petrol or Diesel

The ideal tool to jump start 12V Diesel crafts without a battery up to 250HP. **Eg. Speedboats, Jet skis, Zodiacs...**

Jump Starter
SOS 12/24V-2400/1200CA
Petrol or Diesel

The ideal tool to jump start 12V boats and 24V Diesel crafts without a battery over 1000HP. Ideal for harbours, mariners and repair shops. **Eg. Speedboats, Yachts...**

SOS 12/24V Mobile Models

IDEAL FOR MARINAS AND REPAIR SHOPS

Jump starter

SOS 12/24V-3200/1600CA

Petrol or Diesel

The ideal tool to jump start 12V and 24V Diesel crafts without a battery over 1000HP. This mobile model on wheels makes access easier in marinas and workshops. **E.g. Speedboats, Yachts**

RECOMMENDED OPTIONS

EASY & SAFE CONNECTIONS

To ensure fast and reliable jump starting, **SOS Booster®** offers several cables and connectors suitable for the nautical sector.

Part No: 860039

Place an auxiliary connector on your boat for fast access to jump starting the batteries at all times.

Part No: 860035

Part No: 860037

Use this special cable to connect the **SOS Booster®** to your boat. This connection removes any risk of error and provides better conductivity.

Practical Example:

The SOS 12/24V 2400/1200CA Booster can jump-start a Yacht with 2 x 350HP Diesel engines without a battery.

Practical Example:

The Micro 12V/800CA Booster can jump-start a Speedboat with a 280HP Petrol engine without a battery.
